

Easter messages

Hi Mr Wanless

I enjoyed them 2 days off you gave us and maybe the 2 weeks off just a little bit more!, and don't worry I have been watching SO many more movies. I have been playing with people online , and still doing lots of reading and spellings, it has been fun working at home (sometimes that is) it gets boring sometimes but I get to spend lots more time with my family.

It's so nice to see how much support the NHS and how many donations they are getting but sad so see so many people getting ill.

Did you see the man that raised 23 million by walking up and down his garden?, he was 99 years old.

It has been very sunny lately (that never happens) it's a shame to spend most of it indoors however me and my mum have been going for lots of walks and even driving around in her convertible with the roof down!

I hope you had a nice Easter break, and had lots of chocolate. I got a whole basket of eggs and chocolate from my Nanny, although I didn't get to see her to say thank you 😊

Hope to see you soon, if we ever get back to school

Callum

Dear Mr Wanless,

In the Easter Holidays I have been playing Football, Nerf battles, Ball games, Playing with the dogs and playing with toys that my Mum bought for me, my Brother and my Sister to play with so we have something to do in the Garden. I also have been on Facetime with my Friends and Family and I have been playing Roblox with my Brother and Sister. Also I have been watching a series on Disney Plus, Watching films with my Family and going on walks.

It is very different because we can't go near people we don't live with and if we are on a walk and someone is coming we have to move to the side or cross the road and go on to a different path. I feel worried about the virus because I don't want anyone close to me to get it. Sometimes I feel bored because we are limited to what we can do, I miss the shops, day trips out and my Grandma's caravan in Great Yarmouth that we all go to as a family, which also means we can no longer get together as a family so I miss them too, as a family we are all very close and do lots together.

I am missing School for the comfort and help that my teacher gives in lessons, also my friends and the games we play at break and lunch, things are just not the same and so wish they could be.

From  
Sophie
