## The Setting

The story takes place in Tracy's flat. Jess and Tracy are waiting for beloved Sean (Tracy's boyfriend) so they can have a nice dinner at the most expensive restaurant in town because if you didn't know he's a famous footballer (ikr how did Tracy manage that). Sadly it didn't take long till they realized he was two timing cheat and they left the mansion that they had moved into. I haven't said to much about Jess though have I? So before they had moved in Jess was a loner with no friends to play with at school so she was bullied. But once everyone heard she was moving in with Sean everyone wanted to be her best friend. At the end they ended up living at the top of a shop (where Tracy was working)near the beach.

## The Characters

Since Jessica(Jess) is the daughter of Tracy and she's new I'd say she is the main character and because she was the one that found out Sean was two timing Tracy. Interesting fact: the boy that was bullying Jess is now one of her best friends. There was a good reason for moving in with Sean because she got a special surprise that you'll have to read the book to find out . What makes all the characters so easy to remember is because of their mysterious characters that shapes their amazing personality.
