

Jungle Animal Fact File

Poison Dart Frog

The poison dart frog is one of the most poisonous animals on earth.

Poison dart frogs live in tropical rainforests in South and Central America.

They have excellent eyesight and a very sticky tongue to help them catch prey.

They are brightly coloured to put off predators. Their colours can range from red, green, blue and black to yellow, gold and copper.

Poison dart frogs are about 3cm tall.

Did you know...? The golden poison dart frog has enough poison to kill 10 adult men.

Indigenous tribes have used these frogs to poison their darts for hunting. Did you find the clue in their name?
