Pupil Premium Funding 2020-2021

What is Pupil Premium?

In 2011-12 the Government launched its Pupil Premium Funding. The Pupil Premium is allocated to schools to be used for children from low-income families who are eligible for Free School Meals (FSM), children who have been looked after continuously for more than six months and children whose parents are currently serving in the armed forces. Since April 2012 Pupil Premium funding was extended to children who have been eligible for free school meals at any point in the last six years. Schools also receive funding for pupils who have left local authority care because of adoption, a special guardianship order, a child arrangements order, or a residence order. Children who have been in local authority care for one day or more (Looked-after children) also attract funding. These funds go to the virtual school head (VSH) in the local authority and schools receive funding from the VSH.

The Government believes that the Pupil Premium, which is additional to main school funding, is the best way to address the current underlying inequalities between children eligible for free school meals (FSM) and their wealthier peers by ensuring that funding to tackle disadvantage reaches the pupils who need it most.

We have the highest expectations for all our pupils. We assess, track, monitor and evaluate the progress of each individual child and this informs our provision.

At Parkside Community Primary School we take into account the following factors when deciding how to spend Pupil Premium funding:

- **How to adapt high quality whole class teaching to meet the needs of those eligible for Premium funding and all pupils.**
- **How to identify the right provision for Pupil Premium pupils: what is effective for one pupil might not be so effective for another.**
- **How to ensure that the Pupil Premium pupils have the opportunity to apply and consolidate what they have learnt in group and individual tuition.**
- **How to enhance provision if the pupil also has special education needs or disabilities (SEN/D)**
- **How to train teachers and teaching assistants so that the needs of those eligible for the Pupil Premium, and all pupils, are met.**
- **How to engage with parents so that school and home can work together to meet needs.**
- **How to support pupils to ensure they fully participate in all that the school can offer**
- **How to use research findings which show relative effectiveness of different interventions.**

PARKSIDE COMMUNITY PRIMARY SCHOOL

The main barriers to educational achievement faced by eligible pupils were learning difficulties in reading, writing and mathematics, speech and language difficulties, attention and concentration and social and emotional difficulties.

During this financial year, Parkside Community Primary School received a total £169,000 pupil premium funding. In addition to high quality class teaching, the funds have been allocated in the following ways to address these barriers and maximise each pupil's progress and attainment:

Barriers to Educational Achievement

Within our school setting, there are a number of barriers faced by eligible pupils:

- low entry levels to the school – especially in language and communication;
- lack of perseverance skills / belief / ambition in what they can achieve in life;
- gaps in understanding of basic skills – especially where attendance is low;
- limited 'life experiences'.

Monitoring and Measuring Impact

- PPM run half termly will identify Pupil Premium pupils and review their progress and attainment. SMART targets and interventions for them will be identified to ensure accelerated learning.
- We measure impact of the interventions half termly.
- We use a rigorous system to ensure that additional support is individually tailored for each pupil across the year.
- Alongside this, we track data throughout the year to measure the summative impact of the interventions provided.

Review Date

A review of our pupil premium strategy will take place every half term, in line with Pupil Progress Meetings.
